

NABIN GHIMIRE

Senior Product Designer · Design Systems & Enterprise Healthcare UX

Kathmandu, Nepal · +977 9841014781 · ghinabin@gmail.com

nabin-ghimire.com.np · linkedin.com/in/nabin-ghimire

PROFESSIONAL SUMMARY

Senior Product Designer with 9+ years designing enterprise SaaS and healthcare platforms for US and Japan-based markets. Design systems specialist who built a standalone, scalable React component library in a monorepo — a single source of truth that keeps designers and developers aligned through atomic design, Storybook documentation, and Git-based versioning. Combine deep UX research and WCAG 2.1 AA accessibility expertise with hands-on design-to-code skills that bridge design and engineering on complex, regulated products.

CORE SKILLS

Design Systems: Design System Architecture · Component Libraries · Monorepo · Atomic Design · Design Tokens · Storybook · Design Documentation

Front-End: React · HTML · CSS · Git & Version Control · Design-to-Code Handoff

UX & Research: User Research · Usability Testing · Journey Mapping · Information Architecture · Interaction Design · Wireframing · Prototyping

Accessibility: WCAG 2.1 AA · Inclusive Design Patterns

Leadership: Cross-Functional Collaboration · Designer Mentorship · Stakeholder Management

Tools: Figma · Adobe XD · Zeplin · After Effects

Domains: Healthcare · Enterprise SaaS · E-commerce

PROFESSIONAL EXPERIENCE

Senior Product Designer June 2023 – Present

Viveka Health · US Healthcare Enterprise Solutions *Sanepa, Lalitpur, Nepal*

- Architect and maintain the enterprise design system powering multiple healthcare products, spanning component libraries, interaction patterns, and documentation.
- Built a standalone, scalable React component library in a monorepo to take the design system beyond Figma into production code — a single source of truth for designers and developers, structured on atomic design, documented in Storybook, and versioned with Git.
- Lead end-to-end product design for employer eligibility systems, provider search platforms, and care coordination tools serving healthcare organizations.
- Conduct user research — stakeholder interviews, contextual inquiry, and usability testing — to ground design decisions in evidence.
- Design intuitive workflows for complex healthcare processes while maintaining WCAG 2.1 AA accessibility compliance.
- Partner with product and engineering teams to establish an efficient design-to-development handoff.

Product Designer (Contract) 2024 – 2025

DOCS.ink · Digital Waiver Management SaaS *Remote*

- Led the end-to-end UX process from competitor analysis and concept development through wireframing, prototyping, and user testing for a digital waiver platform.
- Built a scalable design system from scratch — component library, interaction patterns, and style guide for the waiver builder interface.
- Designed workflows for waiver creation, signature capture, and data management used by businesses across multiple industries.
- Collaborated with developers to ensure faithful implementation of responsive, cross-platform layouts.

Product Designer March 2016 – May 2023

EKBANA Solutions Pte. Ltd. · Product Design Agency *Kupondole, Lalitpur, Nepal*

- Led product design across aviation (Yeti Airlines), food delivery (Foodmandu), e-commerce (Koklass), and social platforms (Raven).
- Pioneered the company's first design system with reusable components and UX patterns, establishing the foundation for all product development.
- Ran UX research including persona development, journey mapping, and usability testing to validate concepts.
- Mentored junior designers on user-centered methods while refining interfaces through iterative testing.

Graphic Designer January 2015 – March 2016

Creo Communications · Creative Agency *Lalitpur, Nepal*

- Delivered print and digital design across brand identity, marketing collateral, editorial layouts, and web interfaces for diverse clients.
- Managed client relationships and project workflows, building skills in translating business goals into visual communication.

EDUCATION

Master of Science, Computer Science2024

Keele University

Bachelor of Science, Information Technology2017

Sikkim Manipal University · Distance Education

KEY PROJECTS

Viveka Design System — Standalone, scalable React component library in a monorepo — a single source of truth for designers and developers, built on atomic design and documented in Storybook to deliver consistent, accessible experiences across healthcare applications.

Employer Eligibility Platform — Enterprise health-insurance benefit management application streamlining member enrollment and eligibility verification.

Find Care Provider Search — Multi-platform provider discovery with smart filtering, price estimation, and appointment booking.

DOCS.ink Digital Waiver Platform — Waiver management SaaS with signature capture, compliance tracking, and enhanced data management.

Yeti Airlines Booking App — Domestic flight booking application designed for varying levels of digital literacy.

CERTIFICATIONS & COMMUNITY

Accessible and Inclusive Design Patterns — LinkedIn Learning

Advanced UX Design & Interaction Patterns — LinkedIn Learning

Design Contributor, Industrial Vision Magazine — Provided subsidized design services to the Society of Industrial Engineering Students, Nepal (Volumes 2.0–10).
